Dragon

Those born in the year of Dragons are in their Tai Sui year, which indicates a tendency towards negative thoughts and conflicts. It's crucial to be vigilant and handle situations with caution as there's a risk of encountering difficulties that could lead to significant setbacks. Stay positive, maintain harmony, and avoid conflicts. If you're willing to compromise, you'll have more opportunities to overcome challenges and find solutions!

Monkey

The Monkey zodiac sign will have good social connections this year, but the overall fortune is highly variable. It's best to avoid seeking major achievements and instead focus on avoiding mistakes. Relaxation and emotional openness are essential for maintaining good health, given the tendency towards jealousy and irritability.

Tiger

Those born in the year of Tiger, this year is the 'Traveling Horse' year, which means there is a likelihood of changes, relocations, or travel. It suggests opportunities for career development or frequent chances to travel. However, there are no auspicious stars present, and the astrological chart shows inauspicious stars. Therefore, it's crucial this year to focus on self-improvement, work diligently, and make efforts for personal growth.

Rabbit

Those born in the year of Rabbit, after a stagnant year due to conflicting energies, are feeling a strong urge for change and innovation this year. However, the overall luck for the year is not very promising, this may lead to some instability in the first half of the year, especially affecting interpersonal relationships! To break through, proactive efforts are needed to seek opportunities and expand your professional network. Only then will there be signs of gradual improvement in your overall fortune.
